GTE Award Creation and Purpose

The Guide Training and Education (GTE) Award was created to provide commercial operators, industry organizations, national rafting federations, government regulators and other interested parties worldwide with a common standard for whitewater professionals. The GTE system is managed by the International Rafting Federation (IRF) through the GTE Committee under authority of section 47 of the IRF Bylaws. The system was first developed in 2001 and has been revised several times since that date. This document represents the latest revisions as of May 2017. Please check the IRF website at <https://www.internationalrafting.com/gte1/> to determine if a more recent revision has superseded this document.

Minimum Requirements

Award Candidates must:

- Be at least 18 years old. Candidates who are applying as a trainee (provisional) guide must be at least 16 years old.
- Be able to swim.
- Hold a current, valid, IRF approved First Aid Certificate (FAC) with the following requirements:
 - Raft Guide, Inline Raft Guide, Safety Kayak, and Event Safety 1 & 2: Standard First Aid certificate (minimum course duration 8 hours, must include CPR).
 - Raft Trip Leader, In-line Raft Trip Leader, Event Safety 3, Instructors, and Assessors: Advanced First Aid certificate (minimum course duration 16 hours, must include CPR).
 - The certificate must show the dates of when the course was taken which must be no longer than 3 years old.
 - IRF GTE does not accept First Aid certificates that are valid for more than 3 years or were 100% on-line First Aid courses.
 - A copy of the card or certificate must be provided as proof and must ideally where possible be valid for at least six (6) months beyond the assessment date.
- Maintain a logbook or record of each commercial river run, ideally signed by the Trip Leader or Operations Manager of the company. As proof of experience, relevant individual/ or company contact details should be included in the log. The logbook must be presented to the Instructor or Assessor as proof of experience before an assessment.
- Complete at least one familiarization run, and know the evacuation routes and procedures that are appropriate for the stretch of whitewater on which they intend to Guide, Trip Lead, Instruct or Assess.
Note: An exception to this requirement is made in the case of highly experienced guides running exploratory or infrequently run expedition-style trips where a familiarisation run may be impractical.

Note: Instructors and Assessors, in cooperation with the local company/organisation hosting the training or workshop (when applicable) are responsible for checking river levels before commencing the training or workshop to ensure that candidates are appropriately qualified, experienced and equipped for the conditions encountered.

Award Fee Structure

IRF GTE Assessment Fees *(payable to the IRF)*

Note: All certifications and renewals are valid for 3 years from date of issue.

GUIDES AND TRIP LEADERS

Guide Assessment fee	US\$40.00
Trip Leader Assessment fee	US\$70.00
Guide or Trip Leader Renewal Fee ¹	US\$30.00
Renewals for certifications expired more than six (6) months	US\$30.00 (plus US\$10.00 for each year expired)
Replacement or renewal of e-certificate/card	US\$10.00

INSTRUCTORS

Instructor Assessment fee	US\$130.00
Instructor Renewal Fee ^{1 2}	US\$0.00
Renewals for certifications expired more than six (6) months ²	US\$130.00 (plus US\$10.00 for each year expired)
Replacement or renewal of e-certificate/card	US\$10.00

¹Must meet all renewal requirements within six (6) months after the date of expiration

²Must have attended a GTE Instructor Workshop or GTE Conference within the past three (3) years

Where candidates have multiple assessments or renewals at one time they will be required to pay the higher fee plus US\$15.00 for the second qualification.

For example:

Raft Guide AND Safety Kayak initial Certification	US\$40.00 + US\$15.00 = US\$55.00
Trip Leader AND Safety Kayak initial Certification	US\$70.00 + US\$15.00 = US\$85.00
Raft Guide AND Safety Kayaker renewal	US\$30.00 + US\$15.00 = US\$45.00
Trip Leader AND Safety Kayaker renewal	US\$30.00 + US\$15.00 = US\$45.00

Instructor & Assessor Fees *(payable to your Instructor)*

Instructors and Assessors will normally charge a fee to compensate for their time and expense in providing a GTE assessment. These fees are set by the Instructor or Assessor and will vary in the amount charged depending on several factors including (but not limited to) length of course, location of the river, equipment and services provided, number of candidates, the country or region, and the currency and method used for payment. To determine the total cost of any assessment, you will need to communicate directly with your Instructor or Assessor.

Definitions

General

Run

A single trip down a stretch of river. For logbook purposes, a run is equivalent to every 2 hours of on-river rafting time.

Guide Training Program

A Guide Training Program (GTP) is a structured course and/or on the job training that is a prerequisite to obtaining any GTE certification. An approved GTP must, at minimum, cover the following instructional topics:

- a) Physical Skills - rafting techniques, crew training and management, emergency and rescue techniques
- b) Theoretical and Practical Knowledge – equipment (types and usage), safety and emergency procedures, river hydrology, leadership, signals

Training Module

Training Modules (TM) are designed to supplement guide training with specific additional skills related to rafting such as; Safety Kayaking, Safety Rafting, Event Rescue, Inline Rafting etc.

Award Level

Award Levels indicates the type of GTE award in relation to a candidate's assessed skill, knowledge and experience. Assessments for a specific Award Level are always conducted on whitewater rapids which are rated to a corresponding Class/Grade. For example, the skill assessment for a Level 3 Raft Guide (RG3) candidate must be conducted on whitewater that is rated at least Class/Grade 3.

Watercraft

Raft

The IRF has defined a "Raft" as a soft-bodied, inflatable watercraft especially constructed and designed to be maneuvered through whitewater rapids. Rafting requires specialized equipment and instruction to participate safely and competently, and may require considerable skill by the participant(s) depending upon the class/grade of difficulty of the rapids.

Safety Raft

A Safety Raft is a Raft or Cataraft that is designated primarily as a platform for providing on-river safety coverage for rafts which are carrying onboard passengers. A Safety Raft is generally controlled and maneuvered by oars fixed to the raft via a rigid rowing frame, and may also be used to transport equipment, stores and luggage (gear boat). A designated Safety Raft cannot transport onboard passengers other than trained guide staff.

InLine Raft

“Inline Raft” is a generic term used to describe a variety of small inflatable watercraft such as inflatable kayaks, IKs, inflatable canoes, duckies, torpedoes, etc. These watercraft are designed so that all persons onboard must be positioned inline (sitting or kneeling one behind the other). InLine Rafts may be paddled by relatively unskilled persons on mild whitewater, or by a skilled person on difficult whitewater.

Safety Kayak

A Safety Kayak is a whitewater kayak that has been specifically designated to provide on-river safety coverage during a raft trip. A Safety Kayak must be of a type and design that is capable of performing swimmer rescue and equipment recovery, and should never be used for other purposes (such as trip photography, etc.). Safety Kayakers must always be trained and experienced in providing kayak safety support.

Designations

Certification Types

Guide

A person who has demonstrated that they have the skills, knowledge and experience necessary to safely and competently control their watercraft on a whitewater river while acting as captain of a crew of inexperienced paddlers. A Guide must also be capable of operating as a member of a team of Guides, and be skilled in basic whitewater rescue techniques and an in-line raft Guide is also able to manage self-guided river crafts down a river section. Candidates for this award must provide a logbook or other evidence of guiding experience on more than one river equal to the Level of award desired, evidence of training equivalent to a GTE GTP, and hold a current standard first aid and CPR certification or higher.

Note: Candidates who intends to guide using an oar-powered raft, must also obtain a Safety Rafter certificate in order to prove competency using an oar-powered raft.

Safety Raft

A Guide who has demonstrated that they have the additional skills, knowledge and experience necessary to safely and competently provide on-river safety support from a raft that is primarily controlled by fixed oars (oar raft or cataraft). Candidates for this award must provide a logbook or other evidence of experience on more than one river equal to the Level of award desired, evidence of training equivalent to a GTE GTP, and hold a current standard first aid and CPR certification or higher.

Safety Kayak

A Guide who has demonstrated that they have the additional skills, knowledge and experience necessary to safely and competently provide on-river safety support from a kayak. Candidates for this award must provide a logbook or other evidence of experience on more than one river equal to the Level of award desired, evidence of training equivalent to a GTE GTP, and hold a current standard first aid and CPR certification or higher.

Event Safety

A person who has demonstrated that they have the skills, knowledge and experience necessary to provide specialized safety coverage and rescue assistance in a river or swift water environment during a raft race event. Candidates for this award must provide evidence of recent training (within two years) in a river rescue training program approved by the IRF, OR satisfactorily complete an IRF Event Safety training program. EST's must hold a current standard first aid and CPR certification or higher. Additional certifications in Event Safety include "Assistant" and "Group Leader".

Trip Leader

A Guide who has demonstrated that they have the additional skills, knowledge and experience necessary to competently and safely lead a river trip. The Trip Leader is in control of the rafting trip, and is responsible for coordinating the actions of other Guides on the trip. Candidates for this award must provide a logbook or other evidence of trip leader experience on more than one river equal to the Level of award desired; must demonstrate a high level of Guide skill and knowledge, interpersonal skills, and a thorough knowledge of trip planning, river rescue techniques, and emergency procedures; and are required to hold a current advanced first aid certificate or higher.

Instructor

A person who has demonstrated that they have the skills, knowledge and experience necessary to competently and safely conduct an IRF GTE Workshop. GTE Instructors are the primary representatives of the IRF GTE program and are required to have exceptional interpersonal and river skills, and to represent the IRF with honor and integrity. Candidates for this award must possess a current Trip Leader award for the Level and type of Instructor award that they wish to acquire; have guiding experience on a variety of different rivers, in two or more countries, be capable of demonstrating a variety of teaching methods and techniques for instructing and assessing GTE program participants, be capable of fully demonstrating all physical skills required of their students; and must have a current advanced first aid certificate or higher.

Assessor Instructor Trainer

GTE Assessors represent the highest level of the IRF GTE program and are primarily responsible for training and assessing GTE Instructor candidates, and keeping Instructors current with changes and updates through organized Instructor Workshops. Assessors must have an exceptionally high level of Instructor skill and knowledge, and maintain a current advanced first aid certificate or higher.

Candidates for this award must possess a Level 4 GTE Instructor award; must submit an original work to the GTE Committee that demonstrates an exemplarity knowledge of guiding and/or compliments and improves upon the body of work used by the IRF GTE Program; must be recommended for Assessor status by a minimum of two (2) current and active IRF GTE Assessors; and must be voted for acceptance by a majority of the GTE Committee.

Assessors also act as IRF Ambassadors, and are responsible for assisting government officials and regulators who have adapted the GTE program, and may be called upon to help settle disputes among Instructors, serve on panels and committees, and contribute toward program improvements.

Certification Restrictions

Site Specific

A person who has been awarded a Site Specific certification is restricted to operate only at the site specifically named on the award.

Site Specific locations are whitewater areas that rarely (if ever) change in volume or flow characteristics, such as a dam controlled river or an artificially constructed whitewater venue. At such locations, it is possible for a Guide to perform competently by memorizing the run rather than by developing river reading skills.

Site Specific certifications are not given a Level designation, but instead a specific site (as described above) is named on the certification. The site will include the venue name or river and section name. Site Specific awards are valid only at the named site, and only when the conditions are equal to those that are normally encountered at the named site.

Provisional

This status is given to a candidate who has successfully complied with most of the requirements needed to obtain an Award, but has not yet complied with all requirements.

A person who has been awarded Provisional status is restricted to operate only when under the direct supervision of an individual who holds a full IRF GTE certification of an equal or higher Level.

For example:

- A candidate certified as a Provisional Level 2 Raft Guide, may operate a raft ONLY if a fully certified GTE Level 2 Raft Guide (or higher) is physically in the raft with the Provisional Guide.
- A candidate certified as a Provisional GTE Level 3 Raft Instructor, may conduct a GTE workshop ONLY if a fully certified GTE Level 3 Raft Instructor (or higher) is assisting the workshop.

Candidates with Provisional status may obtain full certification once all necessary requirements have been fulfilled or demonstrated to the appropriately qualified Instructor or Assessor. It is generally not required that a person with Provisional status participate in a full Workshop in order to demonstrate the remaining requirements.

Administrative Levels

Regional Assessor

GTE Regional Assessors are Assessors who have been appointed to have regional administrative control and oversight over a specific region, country or countries. Regional Assessors are nominated by the GTE Committee and approved by the IRF Executive Committee.

Candidates must be active GTE Assessors with a thorough understanding of the entire IRF GTE Award Program; must maintain regular contact with all GTE Instructors who reside or conduct Workshops within their region, offer regular Instructor Workshops and updates, help to resolve disputes between Instructors, initiate disciplinary hearings and actions when needed, and generally ensure that all areas of the GTE Program within their region is organised and managed with integrity, honor, and according to current procedures and requirements.

GTE Administration

The GTE Administration is a division of the IRF created by the IRF Board of Directors and charged with administering the day-to-day business of the GTE program. The GTE Admin is responsible for receiving and administering payments and paperwork, and fielding basic questions about the program.

GTE Committee

The GTE Committee exists by authority of the IRF Congress, and is responsible for advancing IRF BYLAW 5, Sections 9, 10 and 11 of the IRF Bylaws. This includes developing and promoting programs and systems that may be used as a common standard for rafting guides, river safety personnel, and rafting tour operators.

The GTE Committee is composed of 7-10 active GTE Assessors and Instructors who are appointed by the IRF Executive Committee. The Head of the GTE Committee is a duly elected member(s) of the Board of Directors who is an active GTE Assessor. The GTE Committee is responsible for developing budgets and management systems necessary for the support and growth of GTE programs.

GTE Ethics Panel

The GTE Ethics Panel is the body charged with creating and enforcing ethical standards for the GTE Program. The Ethics Panel has the right to withdraw a person's certification or to refuse renewal if deemed necessary to maintain the standards and integrity of the program. The GTE Ethics Panel is comprised of a rotating pool of GTE Assessors and IRF Administration Officers.

IRF Executive Committee

The IRF Executive Committee appoints the members of the GTE Committee, guides its work, and reviews, comments, codifies and finalises its recommendations. The IRF Executive Committee is comprised of a maximum of five (5) members of the IRF Board of Directors who are familiar with GTE objectives, and includes the IRF President, the IRF Secretary General, and the GTE Committee Head.

Certification Renewal Requirements

All certifications expire three (3) years after issue. Renewal of certifications requires proof that the requirements listed in the Assessment and Renewal Criteria chart have been satisfied, and payment of the relevant renewal fee shown in the Award Fee Structure chart.

Renewals made more than six (6) months after the expiration date are required to pay an additional USD\$10.00 administrative fee for each year that the certification was expired.

There is no renewal fee for active Instructors if renewal requirements are completed within six (6) months after expiration. Inactive Instructors must have attended an Instructor Workshop or Conference within the past three (3) years.

GTE Award Structure

Raft			
Standard Raft - Cataract			
Designation	Code	Award & Level	Description
Guide	RG2	Raft Guide – Level 2	Certified to operate as a Raft Guide on rapids up to Class 2.
	RG3	Raft Guide – Level 3	Certified to operate as a Raft Guide on rapids up to Class 3.
	RG4	Raft Guide – Level 4	Certified to operate as a Raft Guide on rapids up to Class 4.
	RG5	Raft Guide – Level 5	Certified to operate as a Raft Guide on rapids up to Class 5.
Safety Gear Boat Oar Raft	SR2	Safety Raft – Level 2	Certified to operate as a Safety Raft on rapids up to Class 2.
	SR3	Safety Raft – Level 3	Certified to operate as a Safety Raft on rapids up to Class 3.
	SR4	Safety Raft – Level 4	Certified to operate as a Safety Raft on rapids up to Class 4.
	SR5	Safety Raft – Level 5	Certified to operate as a Safety Raft on rapids up to Class 5.
Trip Leader Head Guide Senior Guide	RTL2	Raft Trip Leader – Level 2	Certified to operate as a Raft Trip Leader on rapids up to Class 2.
	RTL3	Raft Trip Leader – Level 3	Certified to operate as a Raft Trip Leader on rapids up to Class 3.
	RTL4	Raft Trip Leader – Level 4	Certified to operate as a Raft Trip Leader on rapids up to Class 4.
	RTL5	Raft Trip Leader – Level 5	Certified to operate as a Raft Trip Leader on rapids up to Class 5.
Instructor	RI3	Raft Instructor – Level 3	Certified to conduct GTE Workshops for Raft Guide, Trip Leader, and Safety Candidates on rapids up to Class 3.
	RI4	Raft Instructor – Level 4	Certified to conduct GTE Workshops for Raft Guide, Trip Leader, and Safety Candidates on rapids up to Class 4.
Assessor Instructor Trainer	RA	Assessor	Certified to conduct GTE workshops and assessments for all raft award designations on rapids up to Class 4.

Raft - Restriction Designators			
Type	Code	Application	Description
Site Specific	ss	RG, SR, RTL	Certified to operate as a Raft Guide ONLY at the site specified on the certification during normal flows/conditions.
Provisional	p	RG, SR, RTL, RI	Has not completed all award requirements. Certified ONLY when additional conditions are met.

GTE Award Structure (cont)

InLine Raft			
Inflatable kayak – Inflatable canoe			
Designation	Code	Award & Level	Description
Guide InLine Raft Guide Inflatable Kayak or Canoe Guide	iRG2	InLine Raft Guide – Level 2	Certified to operate as an InLine Raft Guide on rapids up to Class 2.
	iRG3	InLine Raft Guide – Level 3	Certified to operate as an InLine Raft Guide on rapids up to Class 3.
Safety	iRS2	InLine Safety Raft – Level 2	Certified to operate as an InLine Safety Raft on rapids up to Class 2.
	iRS3	InLine Safety Raft – Level 3	Certified to operate as an InLine Safety Raft on rapids up to Class 3.
Trip Leader Head Guide Senior Guide	iRTL2	InLine Raft Trip Leader – Level 2	Certified to operate as an InLine Raft Trip Leader on rapids up to Class 2.
	iRTL3	InLine Raft Trip Leader – Level 3	Certified to operate as an InLine Raft Trip Leader on rapids up to Class 3.
Instructor	iRI	InLine Raft Instructor	Certified to conduct GTE Workshops for InLine Raft Guide, Trip Leader, and Safety Candidates on rapids up to Class 3.
Assessor Instructor Trainer	A	Assessor	Certified to conduct GTE workshops and assessments for all InLine Raft award designations on rapids up to Class 4.

InLine Raft – Restriction Designators			
Type	Code	Application	Description
Site Specific	ss	iRG, iSR, iRTL	Certified ONLY at the site specified on the certification during normal flows/conditions.
Provisional	p	iRG, iSR, iRTL, iRI	Has not completed all award requirements. Certified ONLY when additional conditions are met.

GTE Award Structure (cont)

Safety Kayak			
Designation	Code	Award and Level	Description
Safety Kayak	SK2	Safety Kayak – Level 2	Certified to operate as a Safety Kayak on rapids up to Class 2.
	SK3	Safety Kayak – Level 3	Certified to operate as a Safety Kayak on rapids up to Class 3.
	SK4	Safety Kayak – Level 4	Certified to operate as a Safety Kayak on rapids up to Class 4.
	SK5	Safety Kayak – Level 5	Certified to operate as a Safety Kayak on rapids up to Class 5.
Safety Kayak Instructor	SKI3	Safety Kayak Instructor – Level 3	Certified to conduct GTE Safety Kayak Workshops on rapids up to Class 3.
	SKI4	Safety Kayak Instructor – Level 4	Certified to conduct GTE Workshops for Safety Kayak candidates on rapids up to Class 4.

Safety Kayak – Restriction Designators			
Type	Code	Application	Description
Site Specific	ss	SK	Certified ONLY at the site specified on the certification during normal flows/conditions.
Provisional	p	SK, SKI	Has not completed all award requirements. Certified ONLY when additional conditions are met.

GTE Award Structure (cont)

Event Safety			
Designation	Code	Award & Level	Description
Event Safety	ES1	Assistant – Level 1	Certificate of completion of a Basic Event Safety Workshop. May offer limited safety assistance at IRF Race Events.
	ES2	Technician – Level 2	Certified to operate as a member of the Event Safety Team at IRF A and B Level Race Events.
	ES3	Group Leader – Level 3	Certified to operate as a group leader of the Event Safety Team at IRF A and B Level Race Events.
Instructor	ESI	Event Safety Instructor	Certified to conduct GTE Workshops for Event Safety Team Candidates on rapids up to Class 3.

Event Safety – Restriction Designators			
Type	Code	Application	Description
Site Specific	ss	ES	Certified ONLY at the site specified on the certification during normal flows/conditions.
Provisional	p	ES, ESI	Has not completed all award requirements. Certified ONLY when additional conditions are met.

Assessment and Renewal Criteria

Raft Guide				
Code	Minimum Training	Minimum Experience	Assessment	Renewal Required Every 3 years
RG2	<ul style="list-style-type: none"> IRF compliant Raft Guide GTP IRF compliant River Rescue Training module Standard 1st Aid with CPR 	10 runs or 20 hours guiding a Raft on a variety of rivers with rapids rated at Class 2 or higher	Score 3 or more on guide assessment skill sheet	<ul style="list-style-type: none"> log a minimum of 10 runs on rivers rated at the relevant grade/class hold a current Standard 1st Aid with CPR or higher pay applicable IRF renewal fee
RG3		30 runs or 60 hours guiding a Raft on a variety of rivers with rapids rated at Class 3 or higher		
RG4		50 runs or 100 hours guiding a Raft on a variety of rivers with rapids rated at Class 4 or higher
