Due to the global COVID-19 pandemic and the inability for our usual events to run, the IRF has been severely impacted in the income department. Usually about half our membership fees come in through our Euro and World Champs. However, with neither of these happening in 2020 we saw a significant drop in our income.

The pandemic and various restrictions around the world also saw a major impact on the number of guide training workshops that were run, which resulted in GTE income also be very hard hit.

Despite a very inactive rafting year expenditure was very hard to keep down due to the GAISF Observer fee which is a very large new burden on our finances.
